Old Business

Parish website: Members discussed with Jennifer Ayers, the parish webmaster, what might work for increasing presence of parish ministries and to promote their activities. A form will be created to include information about the ministry, what they are doing now, photos of their members in action, documents, fliers available to print from the page, etc. Liana will work with Jennifer to structure and outline the information to include. Eric Young and his wife are professional photographers and parishioners. They could be available and willing to take professional photos for the various ministries. Ministry chairs would be able to submit information and photos via the web master or through the parish office. Once approved, it would then be added to their specific Ministry web page.
